How do *you* want to be photographed?

Celebrating Your Life's True Beauty

Hi, there!

My goal is to celebrate your life's true beauty in images that capture you at your very best.

Everyone should exist in photographs - for you and your family now and for future generations... and I want you to have personal art that you want to see and share for the rest of your life.

I've been taking pictures for over four decades, starting my business in May 2010. I specialize in women's portraiture, primarily for all the moms taking pictures of their kids, but never stepping in front of the camera themselves. My forté is boudoir and lifestyle personal branding.

Portrait sessions should be fun, and we will work together to plan your boutique experience.

I'd love to meet with you, and find out how you'd like to see yourself in your photographs. Please contact me at (434) 226-0365 or email (best method) maggie@maggietakespix.com to set up your no-obligation consultation.

Yours,

Maggie

Relax, and be pampered! Professional hairstyling and makeup application are included with my Signature Portrait Sessions.

Look like you at your very best.
Your confidence will show!

Your Photographer wants you to know....

Are you feeling camera shy?

"I'm not photogenic." - Yes, you are.

"I don't like having my photo taken." - You will when I'm done.

"I don't know what to do in front of a camera." - That's my job.

It's okay to be nervous. In fact, nerves mean you are outside your comfort zone. Guess where all the fun stuff happens in life? That's right – outside your comfort zone! That's where growth and self-discovery thrive. Embrace the nerves; I promise they won't last long.

I am NOT judging (or even really looking at) your body. I know that sounds crazy, but as a photographer, that is not my job. My job is to master posing, light, emotion, etc. So, yes, although I SEE you, I'm not picking you apart. I am actually aiming to capture the best of you, so that is what I see.

Size or age doesn't matter. I don't care if you are a size 2 or a size 22, 25 years old or 85 years old. For me, I want all women to SHOW UP in photos. That truly means ALL women. Don't put boundaries on yourself just because you "think" it's not for you. That is just your brain lying to you.

You don't have to lose 5 or 10 pounds to book a shoot. Here is a tip, ladies: wardrobe is key! With the proper wardrobe, your photographer has the ability to pose you any way I would like. By posing you properly, I will always make you look as good as you look in real life, if not better! If you don't look good, I don't look good....

Quick side note: Most women are wearing the wrong bra size. The proper bra makes you look trimmer, neater, and more put together. Please do yourself a favor and get yourself measured!

No, I can't just Photoshop that out. Okay, yes, there are SOME things we can Photoshop out.... I will definitely fix temporary blemishes, but I'm not going to reshape your body.... That said...

The more it hurts, the better it looks. I am going to put you in positions you don't usually get into. Even though it might feel weird, trust me when I pose you. My expertise is what you are paying for! Your photos will be fabulous, and you might walk away with a new-found appreciation for models.

The women I photograph aren't supermodels; they're just like you and me. With good wardrobe choices, professional hair and makeup, and my expertise with lighting and posing, your photos will be stunning.
